ACKNOWLEDGEMENTS

First and foremost, we would like to thank the original contributors:
Steve Wozniak, Wendell Sander, Dr. Richard C. Eden, and Apple Computer, Inc.

Each page has been carefully enhanced, while staying true to the spirit of the historically important handwritten and photocopied pages.

The Cover and Book were designed by Brian Wiser.

PRODUCTION

Brian Wiser → Design, Layout, Editing

Bill Martens → Scanning, Production

DISCLAIMER

No part of this book may be reproduced, distributed or transmitted in any form or by any means, including photocopying, scanning, training artificial intelligence technologies or systems, text and data mining, or other electronic or mechanical methods, without prior written permission of the publisher, except in the case of brief quotations contained in articles and reviews, and program listings that may be entered, stored and executed in a computer system, but not reproduced for publication. Thank you for respecting the intellectual property of the authors and publisher.

No warranty of disk images or programs is made or implied and should be used at your own risk.

Call-A.P.P.L.E.™

World's Largest Apple User Group Since 1978

www.callapple.org

Membership in A.P.P.L.E.

Apple Pugetsound Program Library Exchange (A.P.P.L.E.) was one of the first official Apple User Groups in the United States. Founded in February 1978 by Val J. Golding, A.P.P.L.E. grew to almost 50,000 members by 1985. Since many of our members have been Apple users since the first computers were produced, we have one of the most knowledgeable groups in the world that has contributed content to our magazines and website.

The base level membership is only \$27.95 per year and is always due on the month you pay. Higher levels of membership are considered donation levels – the service provided is the same, but you get the satisfaction of knowing that your membership is helping to bring more software and other resources online. To join, please visit www.callapple.org and click the “Subscribe” button on the right side of the page. If you’re already a member – *thank you* – please click the “Login” button and enjoy the extra menu contents.

A.P.P.L.E. supports users of all Apple computers and devices, both vintage systems like the Apple II and Macintosh and modern platforms like iOS. Through the “Users Helping Users” concept, our group provides a great resource for information, hardware, software, and documentation for Apple products.

Member Benefits

- *Call-A.P.P.L.E.* magazine – new PDF issues, usually around 50 pages, full color, with lots of photos, technical articles, reviews, and interviews with legends of the industry. Members can Login to read them.
- A.P.P.L.E. legacy magazine PDF archives of *Call-A.P.P.L.E.*, *Mac-A.P.P.L.E.*, *Mac Horizons*, */// Cheers*, *Co-Op Spirit*, and all other magazines produced by A.P.P.L.E..
- Access to the A.P.P.L.E. Members-only menu items.
- Apple User Group Discounts – Receive discounts on purchases of software, hardware, magazines, and other Apple-related items with the exclusive official Users Group discounts provided by many manufacturers.
- A.P.P.L.E. Software Library – A user-generated software library available to members at little or no cost. We also make new software available to our members for beta testing and review when available.
- Occasional raffles for software licenses available only to our members.
- Access to several legacy A.P.P.L.E.-produced Books and Floppy anthologies.
- Apple Inc. News – Available only to official Apple User Groups and provided directly from Apple Computer Inc on a periodic basis.
- And many more items coming to the A.P.P.L.E. website as we receive them.
