Paperback ISBN: 978-1-387-89391-1

### **ACKNOWLEDGEMENTS**

First and foremost, we would like to thank the original contributors:

Darrell Aldrich, Ron Aldrich, Chris Anson, Cornelis Bongers, Charles Boody, Mark Capella, Robert C. Clardy, John Crossley, Val J. Golding, Eric Goetz, P. Hempfner, Jim Hilger, Bob Huelsdonk, Wes Huntress, Kevin Killion, Charles Kluepfel, Neil Konzen, Sau-Hai Lam, Dr. David A. Lingwood, C.K. Mesztenyi, Peter Meyer, Ted W. Miller, Jim Morrissey, Craig Peterson, Dr. Myrna Traver MD, Kyle Wadsten, Roger Wagner, David W. Walker, Randy Wigginton, Don Williams, and Don Worth.

Special thanks to Steve Wozniak – just because.

Thanks to everyone who joined the A.P.P.L.E. user group, read *Call-A.P.P.L.E.* magazine, made contributions, and supported our endeavours.

The Cover and Book were designed by Brian Wiser.

### **PRODUCTION**

Brian Wiser → Design, Art, Layout, Editing  
Bill Martens → Scanning, Editing

# CONTENTS

Introduction: by Bill Martens.....	\$0F
About the Contents .....	\$10
In Depth Charge: by Val J. Golding .....	\$11

## **Applesoft From Bottom to Top: by Val J. Golding**

*A guided Applesoft tour, construction of BASIC and variables, many helpful utility programs.*

Alice In Appleland – <i>examining bits and bytes</i> .....	1
Through the Looking Glass, Darkly – <i>looking at a memory map; important locations</i> .....	2
Apples to Apples: Till DOS Do Us Part – <i>background and history</i> .....	6
Exam – <i>a program to examine Applesoft memory</i> .....	7
A "Token" Offering – <i>a program to print tokens and addresses</i> .....	9
Making Pointers – <i>a program to print free space and pointers</i> .....	10
Programmers Live a Hexadecimal Lifestyle – <i>a hex-dec converter program</i> .....	14
What Makes BASIC Tick? – <i>how Applesoft statements are constructed</i> .....	17
The Monitor Input Subroutine – <i>a short utility to do Monitor commands from BASIC</i> .....	19
An EXECutive Way of Life – <i>how to capture programs in text files</i> .....	20
Growing Up With Applesoft – <i>how the program builds an obscure bug</i> .....	20
It All Depends On How You Append – <i>combining programs</i> .....	21
Multiplicity – <i>using ON...GOTO as a multiple IF...THEN statement</i> .....	22
Getting High on Hi-Res – <i>moving a program to avoid a hi-res collision</i> .....	23
Using STR\$ and VAL – <i>useful Applesoft features often overlooked by beginners</i> .....	23
Applesoft is Very Variable – <i>an overview of the variable table and the 7 variable types</i> .....	24
Simple Variables Aren't So Simple – <i>detailed descriptions of the four simple variables</i> .....	25
Real Variables .....	25
Integer Variables .....	26
String Variables .....	27
Function Variables .....	27
Variable Table Display – <i>a program to display variable values</i> .....	28
Array Variables .....	32
The Real String – <i>looking at where the ASCII goes</i> .....	33
What to do Till the Garbageman Comes – <i>how string garbage is collected</i> .....	33

Fast Garbage (by Randy Wigginton) – *a program to speed up garbage collection*..... 35  
 Playing Hide and Seek – *several methods to "hide" machine code in BASIC*..... 41  
 Code In, DATA Out – *using data and read statements for machine code*..... 41  
     Converting Binary Files to DATA Statements – *this program does it all for you* ..... 42  
 In Like a Lam, Out Like a Lion – *the hex string or Monitor routine method* ..... 42  
 For Your Eyes Only – *a "transparent" method, where the code is not seen by the user* ..... 43  
 Machine Tools – *how to enter and save assembly language programs*..... 44  
 Relocating Applesoft (by Wes Huntress) – *a routine to automatically move a program in memory*..... 45  
 How to Exceed the Speed Limit and Get Away With It – *hints to shorten program execution time* ..... 46  
 Speeding in Applesoft (by Roger Wagner) – *playing with pointers for more speed* ..... 47  
 Improving GOTO performance (by Sau-Hai Lam) – *an alternative method* ..... 48  
 The Last, Hurrah! – *finding the top rung of the memory ladder*..... 49  
 Duplicity..... 50

**Real Variable Study: by Eric E. Goetz**

*Describes each aspect of real variables, how they appear in memory, how the interpreter handles them.*

Introduction ..... 51  
 Real Variable Study (program)..... 55  
 Logical Line Groups with Function Explanation..... 57  
     Error Handling Control Routine..... 57  
     Error Codes..... 57  
     Dealing With Out of Memory Errors..... 57  
     Initialization of RVS Parameters..... 58  
     Paddle Active Loop ..... 59  
     Keyboard Active Loop ..... 59  
     Command Key Evaluation Section..... 59  
     View Instructions ..... 61  
 SPCOUT (program)..... 63  
 Floating Point Binary Real Variables Commented Listing..... 63  
 Floating Point Binary Reals (program)..... 63  
 Real Variable Study: Table of Variables ..... 65  
 BDHOUT (program) ..... 66  
 Binary, Decimal & Hex Conversion Routines..... 68  
 BDH/DUMP (program)..... 69  
 RVS 6502 Driver (program)..... 71

## **Applesoft Internal Entry Points: by John Crossley**

*Functioning of many major Applesoft subroutines, entry points, registers used, etc.*

Introduction .....	73
Labels .....	73
Abbreviations .....	74
TXTPTR Input Routines .....	75
TXTPTR to Integer Routines .....	75
Floating Point Math Package.....	76
Registers.....	76
Operators .....	77
Constants.....	77
Functions .....	78
Move Routines.....	78
Utilities.....	79
Conversions .....	79
Integer to FAC .....	79
FAC to Integer .....	80
TXXPTR to FAC .....	80
String Utilities .....	80
Routines.....	82
Device Input.....	82
Device Output.....	82
Internal Locator.....	82
Initialization.....	83
Storage Management.....	83
Miscellaneous BASIC Commands .....	84
Hi-Res Graphics.....	84
Cassette .....	85
Error Processor.....	85
Syntax Checking.....	86
Index of Memory Routines.....	87

**Making Basic Behave: by Bob Huelsonk**

*A comprehensive primer on Structured BASIC programming with step-by-step details of two programs.*

**Part I:** Introduction ..... 89

**Part II:** Initialization ..... 92  
 Title ..... 92  
 Menu ..... 93

**Part III:** Input Routine ..... 93  
 Edit Routine ..... 95  
 File Write Routine ..... 95  
 File Reading Routine ..... 95

**Part IV:** Printout Routine ..... 96  
 Ordering Routine ..... 96

**Part V:** Review File Routine ..... 97  
 Search Routine ..... 97  
 Review All Routine ..... 97  
 Ordering Routine ..... 97

**Part VI:** Handy Utilities ..... 100  
 Input Helps ..... 100  
 Base Program (program) ..... 102

**Part VII:** Home Inventory – The New Program ..... 110  
 Initialization ..... 110  
 Input Routine ..... 110  
 Printout Routine ..... 111  
 Format Changes ..... 112  
 Home Inventory (program) ..... 112

**Comparing Applesoft Programs: by Charles Boody, David Walker, Val Golding**

*Utility to check one version of an Applesoft program against another and print the differences.*

Introduction ..... 121

Compare Programs Routine (program) ..... 122

Compare Capturer (program) ..... 124

Comparison of *Orchard Compare* and *In Depth Compare* ..... 124

**Splitter: by Charles Kluepfel***Utility that creates a gap in an Applesoft program and splits it around the hi-res page or other area.*

Introduction .....	127
Applesoft Program Splitter (program) .....	131

**Print Using and Friends: by Craig Peterson***Ampersand utilities collection which include a true Print Using routine.*

Introduction .....	137
& CLEAR and & BELL .....	138
& RPT PRINT .....	138
& SWAP .....	138
& DEL ARRAY .....	138
& PRINT USING .....	139
Print Using & Friends (program) .....	140

**Hi-Res Graphics Routines: by C.K. Mesztenyi***Calling and using Applesoft hi-res routines from assembly language.*

Data Structure .....	149
Entry Points in Applesoft .....	150
Page and Color .....	150
Positioning .....	150
Plotting .....	151
Appendix .....	152

**Ultimate Input-Nearly-Anything Subroutine: by Peter Meyer***Applesoft INPUT statement replacement that allows the use of commas and quotes for inputs.*

Introduction .....	155
Early Input-Nearly-Anything (program) .....	161
Penultimate Input Nearly Anything Subroutine (program) .....	162
Front End (program) .....	163

**? Applesoft Error: by Cornelis Bongers**

*An obscure bug that causes a RETURN WITHOUT GOSUB error is explained.*

Introduction ..... 165  
 Example Program (program) ..... 167

**Program Listing Formatter: by Robert C. Clardy et al**

*A "Pretty Printer" routine which outputs program listings in an easy-to-read format.*

Introduction ..... 169  
 Program Listing Formatter (program)..... 171  
 Make FP List (program) ..... 173

**Delimited String Arrays: by Ted W. Miller**

*Ampersand routine to search and compare multiple sub-strings, using delimiters.*

Introduction ..... 175  
 Delimited String Demo (program)..... 177  
 Delimited String Routines With & (program)..... 179

**Amplifying Applesoft: by David A. Lingwood**

*Several methods to get the best mileage out of Applesoft, including Ampersand extensions to the language.*

**INSIDE APPLESOFT: Efficiency and Program Structure**

Adding Speed ..... 191  
 GOTO and Line Numbers ..... 192  
 "Do While" Statement ..... 193  
 Line Numbers and Speed ..... 193  
 Choice of Algorithms and Efficiency..... 194  
 Overlaying Applesoft ..... 194  
 Overlay (program)..... 195  
 The RND Function ..... 196  
 RND (program) ..... 197

**INSIDE APPLESOFT: Input and Output**

Number Formatting ..... 198  
 Dollar Formatting ..... 198  
 Dollar Formatter (program)..... 199

Formatter (program) .....	200
Input .....	200
<b>INSIDE APPLESOFT: Commands</b>	
Under-used Commands and Features .....	201
WAIT Command .....	201
WAIT (program) .....	202
Integer Variables .....	202
<b>EXTENDING APPLESOFT</b>	
USR Command .....	203
Ampersand Command .....	203
Applesoft Internals .....	204
Ampersand Routines .....	206
& GOTO A .....	206
& GOSUB A .....	206
& INPUT A\$ .....	206
& TONE P,S .....	206
& WAIT T .....	207
& LINE N .....	207
Other Goodies .....	207
Conclusion .....	207
<b>PROGRAMS</b>	
Tone Tester .....	208
Ampersand Line Parser .....	208
Ampersand GOSUB .....	209
Ampersand INPUT .....	209
Ampersand WAIT .....	210
Ampersand GOTO .....	210
 <b>Applesoft Memory Locations: by David A. Lingwood, Bill Martens</b>	
<i>Deciphering what Applesoft does in hexadecimal order.</i>	
Introduction .....	211
Zero-Page Memory Locations .....	211
RAM Memory Locations .....	214
ROM Memory Locations .....	214

## **Resetting Reset: by Robert C. Clardy, Kevin Killion**

*Several unique ways to change the Reset Vector to make it do your bidding.*

Introduction .....	221
On Reset GOTO .....	222
Reset Routine (program) .....	222
Setup Transfer Routine (program) .....	223
Change Line Number of On Reset GOTO .....	223
On Reset BOOT .....	224
On Reset RUN .....	224
On Reset CONTINUE .....	224
On Reset LOCKUP .....	225
On Reset WIPE MEMORY .....	225
On Reset RUN HELLO .....	225

## **APPENDICES**

### **Commands**

Applesoft Commands .....	227
DOS 3.3 Commands .....	231
ProDOS Commands .....	232

### **Memory**

Memory Allocation .....	233
Special Memory Locations .....	233
DOS 3.3 Memory Locations .....	235
Apple IIe Memory Map .....	236
Apple IIc Memory Map .....	238
Apple II Type Lookup .....	240

### **Error Codes**

Applesoft Error Codes .....	241
DOS 3.3 Error Codes .....	242
ProDOS BASIC Interpreter Error Codes .....	242

## **Peeks, Pokes & Calls: by Brian Wiser**

*A collection of highly-organized memory locations for fun and practical use, compiled from multiple sources.*

Scroll Window.....	243
Text & Cursor Position .....	243
Display .....	244
Screen Modes .....	244
Keyboard.....	245
Sound .....	245
Cassette .....	245
Printer .....	245
Game Paddles .....	246
Disk Drive .....	246
Catalog.....	247
Control Reset.....	248
DOS .....	248
ProDOS.....	248
Lo-Res Graphics .....	248
Hi-Res Graphics.....	249
Double Hi-Res Graphics.....	251
Applesoft Programs .....	252
Error Handling.....	253
Register Control.....	253
The Monitor .....	253
Mini Assembler / Disassembly.....	254
Math .....	254
Ampersand Vector .....	254
Integer BASIC .....	255
Miscellaneous Tips.....	256

## **Glossary**

<i>Now you'll always know the correct definitions for Apple, Nibble, VAL, and WOZ .....</i>	257
---	-----
