All About Pascal

Enhanced Edition

Produced by:
Brian Wiser & Bill Martens

Apple PugetSound Program Library Exchange
ACKNOWLEDGEMENTS

First and foremost, we would like to thank the original contributors:
Alan J. Nayer, Allen W. Todd, Chris Wilson, Dana Schwartz, David Geddes, David Lieberman, David Miller, David N. Jones, David Paul McCarthy, Dean Rosenhain, Dr. Wo, Keith McLauren, Michael Christensen, Mike Rosing, Paul W. Mosher, Philip Ender, Ron DeGroat, Roy Bollinger, Val J. Golding, and William Janes.

Special thanks to Steve Wozniak – just because.

Thanks to everyone who joined the A.P.P.L.E. user group, read Call-A.P.P.L.E. magazine, made contributions, and supported our endeavors.

The Cover and Book were designed by Brian Wiser.

PRODUCTION

Brian Wiser → Design, Layout, Art, Editing
Bill Martens → Scanning, Disk Updates

DISCLAIMER

No part of this book may be reproduced, distributed or transmitted in any form or by any means, including photocopying, scanning, or other electronic or mechanical methods, without prior written permission of the publisher, except in the case of brief quotations contained in articles and reviews, and program listings that may be entered, stored and executed in a computer system, but not reproduced for publication. Thank you for respecting the intellectual property of the authors and publisher.

All About Pascal programs are available on a disk image from the A.P.P.L.E. website: www.callapple.org. No warranty of disk images is made or implied and should be used at your own risk.

All About Pascal: Enhanced Edition is an independent publication and has not been authorized, sponsored, or otherwise approved by any institution, public or private.

All images are under copyright and the property of Apple Pugetsound Program Library Exchange, or as otherwise indicated. Use is prohibited without prior permission.

Apple and all Apple hardware and software brand names are trademarks of Apple Inc., registered in the United States and other countries. All other brand names and trademarks are the property of their respective owners.

While all possible steps have been taken to ensure that the information included within is accurate, the publisher, producers, and authors shall have no liability or responsibility for any errors or omissions, or for loss or damages resulting from the use of the information and programs contained herein.
In Depth Charge – Val J. Golding ........................................................................................................... ix

The Pascal + BASIC System – Ron DeGroat .......................................................................................... 1

a hybrid system that allows Pascal to operate concurrently with DOS 3.3 and the
ROM-resident BASIC of your Apple II

An Apple Pascal Supplement – Ron DeGroat

The Structure of Pascal ......................................................................................................................... 13
Avoiding Unnecessary Frustration ......................................................................................................... 17
A Guide to Better Pascal Programs ....................................................................................................... 18
Getting Started (for the beginner) ......................................................................................................... 19

System Utilities

A P-Code Decoder – Chris Wilson .......................................................................................................... 21
for those who want to explore the inner workings of the so-called p-machine

Code Map – David N. Jones ................................................................................................................... 31

a utility for reading the segment dictionary

Non-Present Boot Disk Patch – Chris Wilson .......................................................................................... 35

a simple patch which waits for you to insert the boot disk

Huffin – Dana J. Schwartz .................................................................................................................... 37

(rhymes with "muffin") ... a utility to copy Pascal .TEXT files to DOS 3.3

Puffin – Dr. Wo ..................................................................................................................................... 41

(rhymes with "muffin") ... a utility to copy DOS 3.3 text files to a Pascal environment

Memory Utility

Pascal Memory Utility – Ron DeGroat ...................................................................................................... 57

expanded to include a very fast and useful search mode

Disk Utilities

Pascal Text Recovery – William Janes ...................................................................................................... 69

when your directory is damaged, don’t give up hope

Pascal Zap – Philip B. Ender and Ron DeGroat .................................................................................... 73

an improved block-oriented disk utility
### Pascal Information

- **Pascal 1.1 Memory Map** – *Chris Wilson*
  
  An extensive compilation of Pascal 1.1 memory locations

- **Pascal Internals** – *Mike Rosing and Keith McLaren*
  
  Specific details about Apple Pascal

- **Pascal Bibliography '82** – *David Paul McCarthy*
  
  A comprehensive, updated version of the Pascal Bibliography

### Software Tools

- **Highly Interactive, Goof-proof Keyboard Input** – *Ron DeGroat*
  
  Improving your input error checking

- **Terminal Independent Screen Control** – *Roy Bollinger*
  
  Implementing full screen cursor control

- **Pascal Disk Directory Structure** – *Allen W. Todd*
  
  Accessing the Pascal directory from within a program

- **Text File Header Page** – *Alan J. Nayer*
  
  A description of Pascal text file header data

- **Pascal Date Procedure** – *David A. Geddes and Ron DeGroat*
  
  A procedure to date files without going to the filer to change dates

- **Enhanced Console Driver** – *Chris Wilson*
  
  Generating additional characters and improved lowercase from the keyboard

- **A Structured Record for the DOS VTOC** – *Paul W. Mosher*
  
  Reading the DOS VTOC as an example of using a structured record to simplify programming

### Hardware

- **Pascal Techniques for Hardware Interfacing** – *Chris Wilson*
  
  A modem unit and terminal program for the D.C. Hayes Micromodem

- **Pascal Speed-Up Software for The Mill 6809 Board** – *Michael Christensen*
  
  An extensive review of the Mill as used with Pascal

- **Inverse, Flash and Lowercase Display** – *David Lieberman*
  
  For those with a lowercase adapter

### Graphics

- **A Pascal Character Editor** – *Dean Rosenhain*
  
  A user-oriented graphics utility

- **Artillery** – *David Miller*
Word Processing
Pascal Text Formatter – Chris Wilson................................................................. 163
makes the Editor into a bona fide word processor

Glossary
Now you’ll always know the correct definitions for Apple, Nibble, VAL, and WOZ ......................... 181
