# About the Author

## John Blankenship

John Blankenship taught programming, robotics, and engineering technology at DeVry University for 33 years. He holds a Masters Degree in Electronic Engineering Technology from Southern Polytechnic State University, an MBA from Georgia State University, and a BSEE from Virginia Polytechnic State University.

During his early teaching years, John created *Blankenship BASIC* for the Apple II computer and other programs like *Speech Development System*. He wrote magazine articles for publications such as *Byte*, and numerous Apple books including *Apple House*, *Robotic Arm Projects*, and *Structured BASIC Programming in BBASIC*.

After retiring from DeVry, he wanted to develop better methods for teaching and motivating precollege students. John, along with colleague Samuel Mishal, developed *RobotBASIC* for Windows – a programming language ideally suited to the educational environment. And, because of their desire to contribute to the Science, Technology, Engineering and Mathematics (STEM) movement, John and Sam continue to make *RobotBASIC* available to schools, teachers, and students absolutely free from RobotBASIC.org.

# CONTENTS

Preface .....	ix
---------------	----

## **PART 1 – THE GOAL**

---

CHAPTER 1 – What to Expect .....	1
CHAPTER 2 – System Overview: Hardware .....	9
CHAPTER 3 – System Overview: Software .....	17

## **PART 2 – HARDWARE**

---

CHAPTER 4 – Voice Recognition System .....	23
CHAPTER 5 – Voice Synthesizer System .....	29
CHAPTER 6 – System Clock.....	33
CHAPTER 7 – Failsafe System.....	39
CHAPTER 8 – BSR Control System .....	43
CHAPTER 9 – Telephone System.....	49
CHAPTER 10 – Interrupt System.....	55
CHAPTER 11 – Tone Generator .....	59
CHAPTER 12 – Input/Output (I/O) Ports.....	65

## **PART 3 – SOFTWARE**

---

CHAPTER 13 – Software Organization.....	71
CHAPTER 14 – Primary Tasks.....	79
CHAPTER 15 – Initialization Module.....	91
CHAPTER 16 – Voice Request Module .....	95
CHAPTER 17 – Phone Control Module .....	109
CHAPTER 18 – Security Module.....	115
CHAPTER 19 – Event Timing Module .....	123
CHAPTER 20 – Monitor Movement Module.....	129

## **PART 4 – THE SYSTEM**

---

CHAPTER 21 – Installation and Maintenance.....	137
CHAPTER 22 – Expansions and Enhancements .....	141

## **APPENDICES**

---

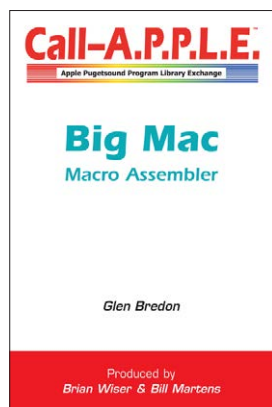

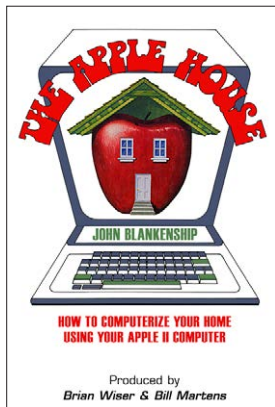

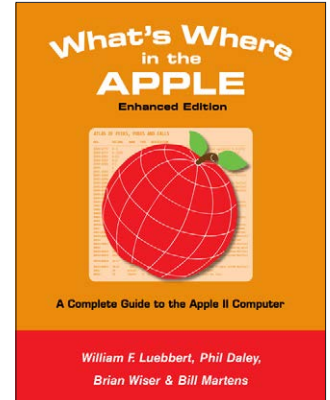

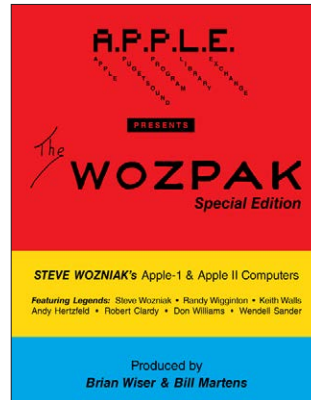

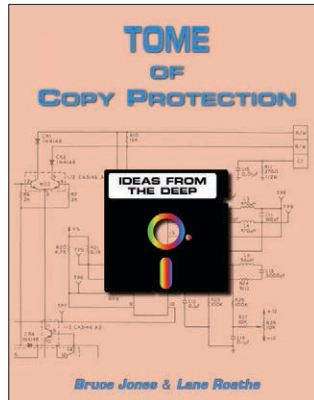

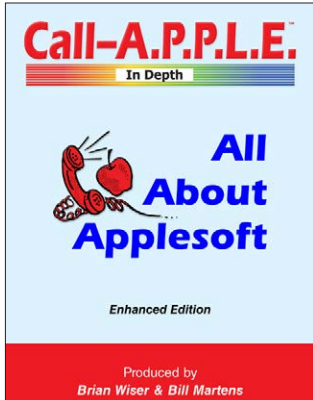

APPENDIX A – Home Control Program (BASIC Portion).....	143
APPENDIX B – Home Control Program (Machine Language).....	163
APPENDIX C – Clock Set and View Program .....	171
APPENDIX D – Time Table Editor .....	175
APPENDIX E – Vocabulary Generator and Tester .....	179
APPENDIX F – HELLO Program.....	183
APPENDIX G – Partial Product and Vendor Listing.....	185
